**eLibro**  
DIGITAL LIBRARY  
eBooks & Spanish Content Platform

# About eLibro

**eLibro**, the first and largest aggregator of relevant academic content in Spanish language from the world's leading publishers and academic presses on a powerful, easy-to-use interface.

**eLibro** is recognized by its **strong commitment** to publishers, authors, students and, above all, education.

With its digital platform and application, researchers, professors and students will be able to access a wide variety of eBooks, journals, research works, lectures, thesis and doctoral dissertations.

## eLibro experience

### Extensive content

**eLibro** offers users **access to academic content tailored to their specific needs and helps** them to achieve their educational goals:

- Over 96,000 eBooks
- Monographs, journal articles and historical documents (Not simply translations of English-language materials)
- Exceptional coverage of the Humanities

### Unparalleled research tools

**eLibro** complies with **rigorous standards of internal organization of documents**, providing **easy access to documents** through metasearch engines and discovery systems.

- Bookshelf feature
- Powerful search capabilities
- Mobile support
- Text-to-speech functionality
- Multi-language support

### Flexible models with customized reporting

- Subscript
- Title-by-title Acquisition

# Get to know the eLibro Digital Platform

This innovative platform along with the new application allow the user to easily interact with a wide variety of academic documents. It is **24/7**, and has unlimited access for users from a registered institution.

## Usability

Once the user has selected a document, the platform enables multiple **tools** that allow the user to perform different actions, including notes, citations, definitions, translations, and more.

### List of Tools

- |   |       |           |   |       |            |
|---|-------|-----------|---|-------|------------|
|  | _____ | Audio     |  | _____ | Print*     |
|  | _____ | Bookmarks |  | _____ | Dictionary |
|  | _____ | Notes     |  | _____ | Wikipedia  |
|  | _____ | Highlight |  | _____ | Translate  |
|  | _____ | Quote     |  | _____ | Biography  |
|  | _____ | Summary   |  | _____ | Maps       |
|  | _____ | Copy*     |   |       |            |

*\*This feature is subject to permission granted by the publisher.*

# Discover our advanced Application

eLibro offers an **application for computers and mobile devices**.

It links automatically with the web platform and **synchronizes the content** the user is viewing. With the loan request, the user downloads the desired documents and may **access them offline**.

## Compatibility

It is available for a great number of devices and operating systems.

Smartphone.

 iPhone	 Android	 Huawei
---	--	--

Tablet.

 iPad	 Android	 Huawei
---	--	--

Computer.

 Mac	 Windows	 Linux
--	--	---

## Administrator User

One of the outstanding features of the platform is the ability to assign **Administrator Privileges to one or more users**. All Administrator Users will be able to:

- Get MARC records of all registered titles
- Change the number of days a book may be on loan
- Create, update or block accounts
- Get detailed reports of use
- Keep track of active users
- Customize site with a logo

## Technical Support

**eLibro** offers all users an efficient technical support team This team will solve any issue. You can contact them at **help@eLibro.us**

## Training

As an additional benefit, **eLibro** offers a **training program** which explains in depth how to use the platform and its tools. Please send your request to **capacitaciones@elibro.com**
